STARFLEET INTERNATIONAL
REGION ONE

HAILING FREQUENCIES

OCTOBER 2022

Center Seat

From The Bridge

I want to thank everyone that came out to the Halloween party. I really had a great time socializing with everyone. The weather could not have been better, a great evening to be outside. Thanks to

Bob & Jana for providing pizza for everyone and everyone else that brought items to share. I feel we had a great turn out and hope everyone enjoyed

themselves as much as Peggy & I did. The meeting went well also with a lot of conversation back and forth. I ask that everyone watch their emails and the newsletter for upcoming events., and let us know of any events that you think the crew would be interested in. I hope everyone is doing well and wish you all a happy upcoming Thanksgiving.

Your CO & Friend
Carnell

Around the Fleet

Greetings fellow members of R1. As the IG for STARFLEET I just want to remind you that starting September 1, 2022 will be the voting phase for the Commander STARFLEET election. Voting will run from September 1, 2022 thru November 15, 2022. This month's CQ has the platforms for all the members and you can either go to the websites/pages of the candidates or follow discussion on the CS Election FB page. If you have any questions concerning the election process you can email me at ig@sfi.org. Thank you.

Live long and prosper,
RADM Stephen Stott
IG, STARFLEET

Cooking with Neelix

Chicken Casserole

2 tablespoons extra-virgin olive oil, plus more for the baking dish, divided
 2 pounds chicken breasts, boneless and skinless
 kosher salt, to taste
 freshly ground black pepper, to taste
 1/2 onion, chopped
 2 medium sweet potatoes, peeled and cut into small cubes
 1 pound Brussels sprouts, trimmed and quartered
 2 cloves garlic, minced
 2 teaspoons fresh thyme leaves
 1 teaspoon paprika
 1/2 teaspoon ground cumin
 1/2 cup low-sodium chicken broth, divided
 6 cups wild rice, cooked
 1/2 cup dried cranberries
 1/2 cup almonds, sliced

Preheat the oven to 350 degrees F.

Grease a 9x13-inch baking dish with the olive oil.

In a large, deep skillet over medium-high heat, warm 1 tablespoon of the olive oil.

Season the chicken with the salt and the pepper.

Add the seasoned chicken to the skillet and cook until golden and the internal temperature reads 165 degrees F, about 8 minutes per side.

Let the chicken rest until cooled enough to touch, about 10 minutes.

Cut the rested chicken into 1-inch pieces.

Heat the remaining tablespoon of oil over medium heat in the same skillet.

Add the onion, the sweet potatoes, the Brussels sprouts, the garlic, the thyme, the paprika, the cumin, the salt, and the pepper to the skillet and cook until softened, about 5 minutes.

Add 1/4 cup of the broth to the veggie mixture and bring to a simmer.

Cook the veggie mixture, covered, about 5 minutes.

Place the cooked rice in the prepared baking dish and season with the salt and the pepper.

Stir the cooked chicken, the cranberries, the cooked veggies, and the remaining broth into the cooked rice.

Top the chicken mixture with the almond slices.

Bake until the dish is heated through and the almonds are toasted, about 15-20 minutes.

T R E K N E W S

OCTOBER 28, 2022 - Since 1973 the Academy of Science Fiction, Fantasy, and Horror Films has been recognizing the best in genre film and television. *Star Trek* has garnered its share of the attention, and this year is no exception.

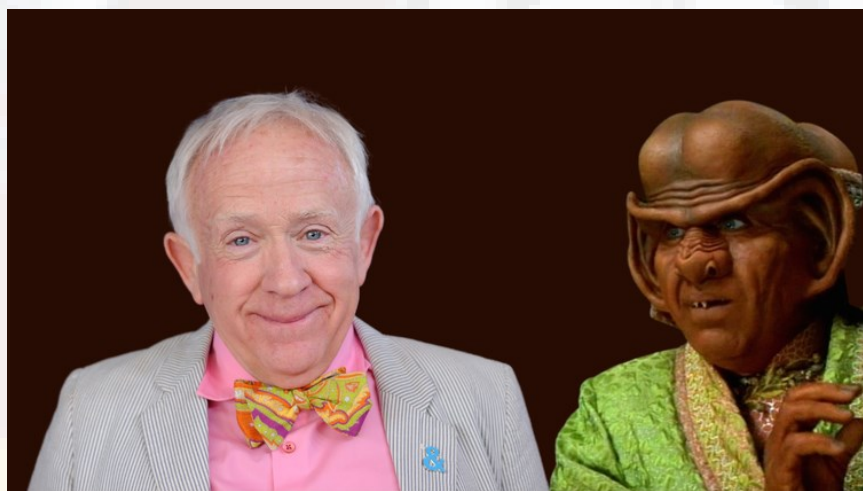

[TrekMovie](#) has a rundown of the results from Tuesday night's ceremonies, into which the franchise went with six nominations across five categories. As it turned out, the only winner was *Star Trek: Strange New Worlds* for Best Streaming Science Fiction Series. Its competition included *The Expanse*, *For All Mankind*, *Lost in Space*, *The Mandalorian*, *The Orville: New Horizons*, and *Star Trek: Discovery*.

The ceremony also included a tribute to Nichelle Nichols, introduced by *Star Trek* screenwriter and director, Nicholas Meyer. It included video from the International Space Station and NASA astronaut Jessica Watkins.

Head over to [TrekMovie](#) for more details and photos.

In addition, the Saturn Awards noted [in a tweet](#) that Kathryn Leigh Scott was receiving her Lifetime Career Award. Scott appeared as the Mintakan leader Nuria in *Star Trek: The Next Generation*'s season three episode, "Who Watches the Watchers." (She is also well known as Maggie Evans – and three other characters – in the original *Dark Shadows*, appearing alongside Ryan Mitchell, who appeared in *TNG* as William Riker's father, Kyle.)

Leslie Jordan, *Star Trek: Voyager*'s Kol, Dies In Car Crash

In roles in productions ranging from *Will & Grace* to *American Horror Story*, he brought his unique voice and presence to the screen and, as himself, to social media, as recently as last Sunday. Sadly, Leslie Jordan died the next morning in a car crash at the age of 67, according to [The New York Times](#).

Star Trek fans will know him as the Ferengi Kol in the *Star Trek: Voyager* season three episode, "False Profits." [Memory Alpha](#) also notes that Jordan and Kate Mulgrew were born on the same day, April 29, 1955.

Star Trek's Rod Roddenberry To Join NASA Astronauts For Fundraiser For Proposed Flight Test Museum

The [Flight Test Museum Foundation](#), which is a nonprofit, is building a one-of-a-kind museum, dedicated to test pilots and experimental air - and spacecraft. To help spread awareness and source funds, they are inviting the public to its annual "Gathering of Eagles" fundraiser which recognizes exemplary aviators. This will include two NASA astronauts.

Rod Roddenberry. *Image: Courtesy of Rod Roddenberry.*

The event and a silent auction of rare memorabilia will be held on Saturday, Nov. 12 at the Antelope Valley Fair and Event Center, H.W. Hunter Pavilion in Lancaster, California, at 6 p.m. Tickets are available for purchase [here](#). All proceeds will support [phase two](#) construction of the museum.

Of special interest to *Star Trek* fans, **Eugene "Rod" Roddenberry**, CEO of Roddenberry Enterprises, executive producer of the groundbreaking *Star Trek* franchise, and son of *Star Trek* creator Gene Roddenberry will serve as the honorary chairman for the evening's event.

The Foundation's Eagle Award recognizes significant achievement in flight tests and will be presented to the following individuals who will be in attendance:

Fred W. Haise, Jr. – NASA astronaut, Apollo 13; Commander, Space Shuttle *Enterprise*; Test pilot; Fighter pilot, Air Force, and Marine Corps. Of course, to *Star Trek* fans, the CO of the *Enterprise* holds a special place in our hearts. [See his story at Memory Beta](#).

Pamela A. Melroy – NASA astronaut, Space Shuttles *Discovery* & *Atlantis*; Commander, *Discovery*; Deputy Administrator, NASA; Test pilot, Air Force. Fans won't fail to spot yet another connection to *Trek*, this time with Captain Burnham following in Melroy's footsteps on *Star Trek: Discovery*.

Todd "Leif" Ericson – Mission Director, *Polaris Dawn*; Test pilot, Air Force, and Virgin Galactic

As Art Thompson, chairman of the Foundation's board of directors states: "Our national mission is to honor technological advances made by test pilots, preserve rare aircraft and spacecraft developed in the Aerospace Valley, and inspire the next generation through the future museum's STEM education programs."

A panel discussion will include **Donald L. Mallick**, Navy pilot, and research pilot for NASA Dryden (now Armstrong) Flight Research Center; **Kelly Latimer**, Air Force and Virgin Galactic test pilot, director of test flight at Virgin Galactic, and (first female) research pilot for NASA Armstrong; **Jared "Rook" Isaacman**, CEO, Draken International and Shift4, and commander of *Inspiration4* and *Polaris Dawn*; and **Wesley R. Persall**, flight test engineer for the Air Force and Scaled Composites, and principal test engineer for Blue Origin and The Spaceship Company.

The public can also support the fundraising campaign by visiting the Foundation's [signed collectibles](#) store.

To learn more as well as see other exciting events, head over to prnewswire.com and read up on all of the details.

MSR

MEETING DATE: 2022-09-11

PROMOTIONS: None this period

ACTIVITIES: The crew started off with its annual attendance of the Nexus event known as Dragon Con in Atlanta Ga. The event ran from Thursday, Sept. 1 to Monday, Sept. 5, several crewmembers beamed in and enjoyed the panels, autograph opportunities and Star Trek photoshoot. The crew was also invited to attend the screening of the historical document Wrath of Khan Which returned to the big screen Sept 4,5 & 8th as an on your own activity. Sept. 8th The crew was also encouraged to participate in the Star Trek Day Watch Party on Paramount We concluded our month with our crew Briefing at our local Mi Ranchos restaurant.

COMMENTS: Work continued on our March Library event, "The Future Begins Now", we now have two guest speakers scheduled and work continues. crew was reminded of the upcoming Starfleet election cycle and encouraged to participate. Crew was invited to online launch party for the Artemis mission but unfortunately this was scrubbed. Special Thanks to RADAM Sandarg for her assuming temporally command while CO and Computer Operations chief were on vacation onboard a galaxy class ship Symphony of the Seas, touring Mexico and Honduras. We hope to share some holoimages of the lifeforms and scenery we encountered next CQ. We updated our social media pages and published our newsletter.
